

Capability Statement

MIM Development & Custom Support

About Us

idmOne provides custom Microsoft Identity Manager development and support, business process consulting, and legacy migration strategy to the federal government and its prime contractors. Our integration services use a proven systematic approach to design and build identity management solutions that address your critical mission requirements.

We empower clients to make the most of their legacy MIM environment while offering extensibility to new systems. We provide documentation and understanding of your current processes, and migration strategies to move your workloads to modern cloud IDAM platforms. We solve complex challenges using real world experience and innovative technology solutions designed for your resources and environment.

Proven Performance

US Army - Tactical GALSsync for deployed networks, Active Directory rationalization, WIN-T tactical domain resiliency design

US Air Force - Active Directory Architecture, ADFS Federation Services Architecture, Office 365 migration pilot

DISA - IdSS MIM modernization and customization, onsite CONUS and OCONUS integration for customer CCSAs

USSOCOM - Lab identity synchronization solutions, IdSS GALSsync development, Privileged Access Management (PAM)

Bureau of Prisons - MIM IDAM development, Active Directory rationalization, Enterprise Architecture, Legacy Migration, Office 365 Migration
